The Benchmark 

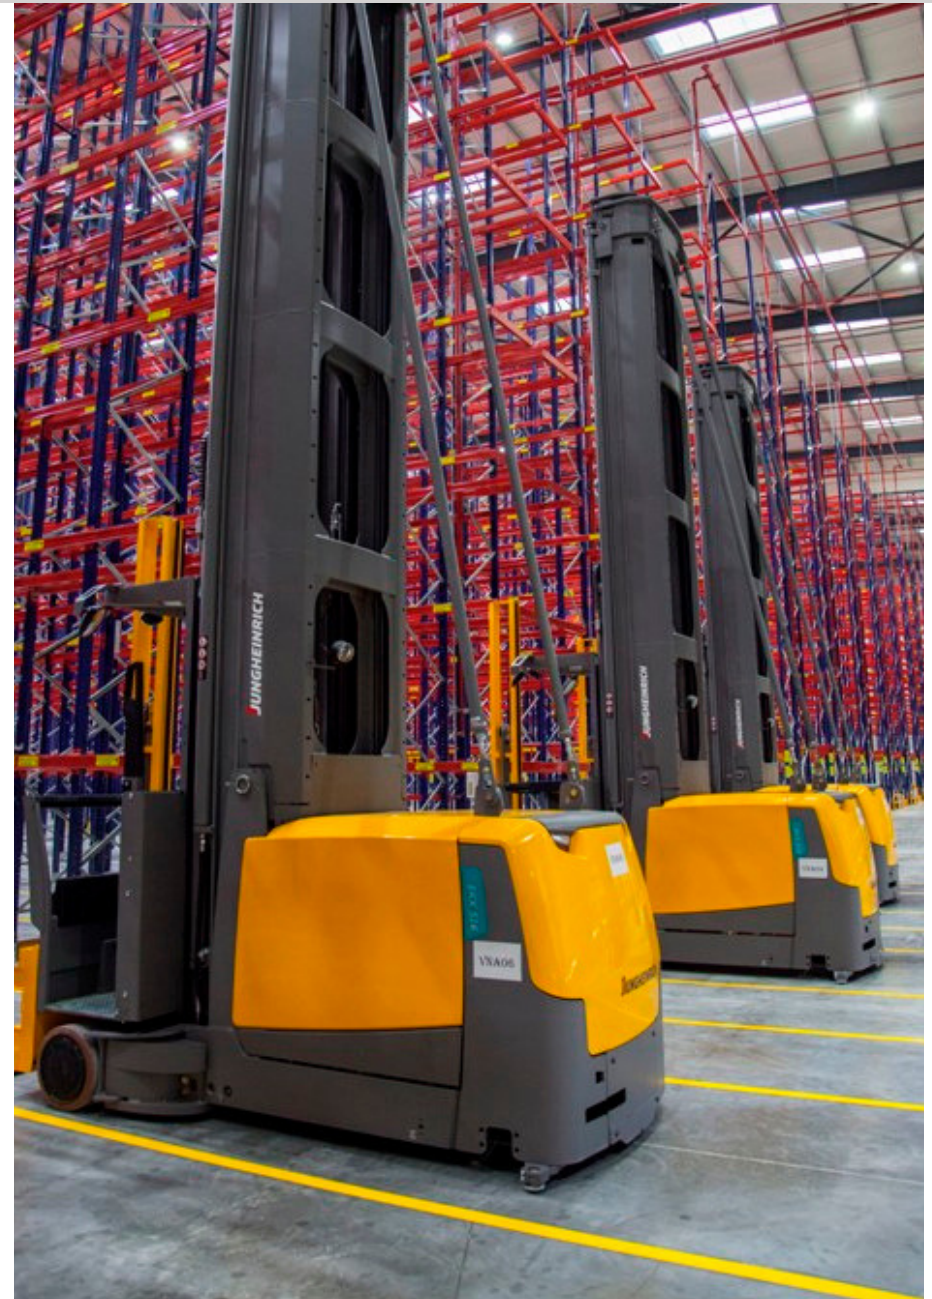

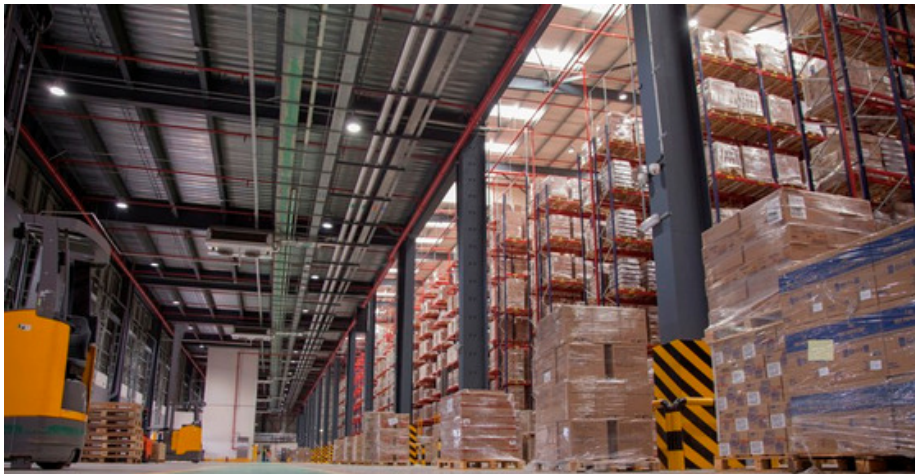

# MOHEBI LOGISTICS

...is one of the largest vertically-integrated supply chain management companies in the Middle East. Founded by Mohammed Mohebi in 2007, this Emirati company has built a successful and sustained track record in FMCG logistics through local know-how, a strong market reputation and an extensive market leading infrastructure

# MOHEBI LOGISTICS

...offers specialist services to the food industry manufacturers & FMCG companies for complete supply chain solutions. From origin management and customs clearance, to warehousing consolidation, co packing and delivery,

*With over 1000 full-time staff, Mohebi Logistics is steadily enlarging its infrastructure base with an increase in storage capacity from 33,000 pallet positions in 2008...*

...to an excess of 250,000 today, including its new facility in Dubai South. This state of the art development is the latest word in high-tech logistics with one of the most environmentally superior set-ups in the region.

With a warehouse containing more than 160,000 temperature-controlled pallet positions over a 100,000 square metre footprint, the Dubai South facility is spread over 206,000 square meters of land which more than doubles the company's existing storage and logistics capabilities, providing enhanced and customized services to its long-standing regional and global partners.
